

APUSH: Sustainable Development Goals Unit

You and your partner will pick two of the Sustainable Development Goals to research and complete the following assignments.

Poster (Due: May 18)

Create a poster to be printed on regular 8 1/2x11 paper. The poster can be about the SDG in general or about one of the specific targets.

Children's Book (Due: June 2)

Create a book to be printed on regular 8 1/2x11 paper. The book can be about the SDG in general or about one to three of the specific targets.

Presentation (Due: June 7)

You must research the two SDGs in the United States and in one EU Member State.

Your presentation must address the following:

1. Three problems related to the issues in each country
 - a. Explain the history of the problems, past attempts at solving the problems, and why they are problems
2. Three solutions that each country is instituting or proposing to solve the problems
 - a. Explain each solution in depth
3. Government agencies in each country that work on addressing the issues
4. NGOs in each of country that work on addressing the issues
 - a. Have they been successful? Are there any obstacles to their work?

Share the presentation with Mr. Knoll via Google Slides. Each country should have three slides devoted to it- 1) Problems, 2) Solutions, 3) Government agencies and NGOs. If you can include images and short (less than 2 minutes) video clips that supplement the material, go for it.

Your posters and books should incorporate at least two of three parts of sustainable development (economic, environmental, social) and three of the 5P's (people, planet, prosperity, peace, and partnership). For more information on both of these, read the Preamble to the 2030 Agenda.
