

AP CompGov: Post-AP Test Assignment

You and your partner will pick three of the Sustainable Development Goals to research and complete the following assignments.

Posters (Due: May 25)

Create a poster for each SDG to be printed on regular 8 1/2x11 paper. The poster can be about the SDG in general or about one of the specific targets.

Presentation (Due: June 8)

Your presentation must address the following:

1. Three problems related to the issues in three of the AP6
 - a. Explain the history of the problems, past attempts at solving the problems, and why they are problems
2. Three solutions that each country is instituting or proposing to solve the problems
 - a. Explain each solution in depth
3. Government agencies in each country that work on addressing the issues
4. NGOs in each country that work on addressing the issues
 - a. Have they been successful? Are there any obstacles to their work?

Share the presentation with Mr. Knoll via Google Slides. Each country should have three slides devoted to it- 1) Problems, 2) Solutions, 3) Government agencies and NGOs. If you can include images and short (less than 2 minutes) video clips that supplement the material, go for it.

Your posters should incorporate at least two of three parts of sustainable development (economic, environmental, social) and three of the 5P's (people, planet, prosperity, peace, and partnership). For more information on both of these, read the Preamble to the 2030 Agenda.
